## INTRODUCTION

Framework and relevance of the non-financial statement

# I. REPORTING FRAMEWORK

## NATIONAL AND EUROPEAN REGULATORY FRAMEWORK

### Spanish Law 11/2018, of December 28<sup>th</sup> on disclosure of non-financial and diversity information

Directive 2014/95 / EU of the European Parliament and of the Council, of October 22, 2014 (amending Directive 2013/34 / EU) - In Review

Proposal for a new Corporate Sustainability Reporting Directive (CSRD).

Regulation (EU) 2020/852, framework for sustainable investments that modifies Regulation 2019/2088. Taxonomy

## + INFORMATION ON SUSTAINABILITY

- Since 2017, Adif AV, for reasons of business transparency and strategic consistency, has chosen to publish an **Integrated Management Report**, which includes the non-financial statement and is subject to the same requirements of approval, filing and publication as the management report and the notes within the process of drawing up and issuing the financial statements. The end of the reporting period is 30 March
- The purpose of the integration is to implement the latest trends in reporting and transparency, **lending higher visibility to social and environmental outcomes and impacts** and thus finding a better balance with the financial data that forms the bulk of the management report.

## REPORTING STANDARD

The non-financial information published by Adif AV is based on the **international reference standard: the Global Reporting Initiative (G4GRI Standards).**

This standard has the objective of identifying, collecting and reporting information on the impacts related to environmental, social and economic issues, as well as managing them in a clear and comparable way, **providing a complete and balanced image of the material issues** of the organization.

In addition, it links **the GRI Standards (G4GRI) with the Sustainable Development Goals (SDGs) of the United Nations 2030 Agenda** that might be impacted by the reporting entity's activities

## II. RELEVANCE OF THE NON-FINANCIAL INFORMATION

### REPORTING ON THE STATUS OF NON-FINANCIAL INFORMATION

---

Non-financial reporting, from the perspective of the triple bottom line, allows better connection with the demands and expectations of **stakeholders, who increasingly demand that companies play an active role in promoting a model of inclusive growth, ethical, and respectful with the environment.** Providing concrete information in these areas on results and impacts gives the organization greater **credibility** by showing with data and facts its commitment to a sustainable development model.

## ADIF AV'S STRATEGIC APPROACH

# I. REVIEW AND UPDATE OF THE STRATEGY

## ADIF AV'S STRATEGY UPDATE PERIOD 2020-2030

### NEW 2030 STRATEGIC PLAN

- In 2021, we **redesigned our strategy** to deliver a sound and effective response to the wide ranging strategic and operational challenges that the Company will face over the coming decade.
- We geared the strategy toward the **expectations of our stakeholders**, the **internal challenges** of companies and the **global challenges** related to sustainable development.
- We are firmly committed to the **Sustainable Development Goals** and alignment with European and national governmental policies; we promote social welfare and equality; and we are moving forward towards developing an inclusive and fair model.
- **The new Strategic Plan** aims to encourage travel by individuals, improve existing networks, build more resilient, inclusive and sustainable infrastructure that helps to mitigate the effects of climate change, enhances our performance through innovation, intrapreneurship and the inclusion of disruptive technologies.

## II. SDGs AS GLOBAL CHALLENGES / RELEVANCE ANALYSIS

**AGENDA  
2030**

The Sustainable Development Goals (SDGs) are a fundamental **frame of reference** for the Company's strategy. In addition to being relevant in terms of **risks and opportunities**, it is our **responsibility as public entities** to contribute to their achievement.

### Impact on 13 SDGs

With **GoSDGs**, a relevant level of impact of the Company's activity has been identified on 13 of the 17 SDGs. Of these 13, three have been selected as priorities:

#### UIC SDG RAIL INDEX Working Group

*We remained involved in this international working group in 2021 to identify and design objectives and targets for the relevant SDGs (7 with 24 KPIs) in the rail sector and thus harmonise ESG standards and sector comparability*

#### Alignment with strategy 2030

*During the year 2021, the GoSDGs model will be updated, aligning the Strategic Objectives, KPIs and strategic initiatives of Adif, all included in its PE 2030, with the goals and material SDGs.*

#### Signing of the Framework Collaboration Agreement between the Secretary of State for the 2020 Agenda and State-Owned Companies

*In 2021, we signed the Framework Collaboration Agreement for the 2030 Agenda, which aims to strengthen collaboration and accelerate the changes that public companies are calling to achieve the goals of the Agenda. To monitor actions and good practices in implementing the SDGs, Adif AV collaborates with the United Nations Global Compact Spain.*

# III. CHALLENGES 2030

## FUTURE CHALLENGES

The **review of the Strategic Plan** identified 10+1+1 challenges that Adif AV intends to embrace.

These are internal, sectoral and global challenges that define our environment and are taken into account when setting objectives and deploying the strategy.

## IV. RISK MANAGEMENT

### RISK MANAGEMENT

Adif AV has a **Comprehensive Risk Management System** based on the following **principles**:

- Integrating risk into the Company's management by means of a unified vision of its strategic and business objectives and of the associated risks.
- Ensuring that the risks that could affect the Company's strategic targets and their delivery are correctly managed and kept within the established risk tolerance levels.
- Maintaining a consistent and transparent end-to-end risk management system which establishes a common set of rules and facilitates standardized identification, assessment and management of risks, with clear roles and responsibilities.

### RISK COMMITTEE

The **Risk Committee** is responsible for drawing up and monitoring the Adif AV risk map.

The map outlines the key threats to the Company's ability to achieve its goals and perform its role. These risks place special focus on the main key pillars of the activity.

To ensure the map provides a comprehensive overview, we supplemented it with the rest of the strategic and critical risks faced by the Rail Network Manager.

In 2021, the Risk Map reflected the widespread uncertainty as to how the COVID-19 pandemic and recovery process will pan out. From an **ESG standpoint**, matters related to climate change were included as a specific risk.

# V. CONTROL OVER FINANCIAL REPORTING

## INTERNAL CONTROL OVER FINANCIAL REPORTING

For its part, the **Internal Control over Financial Reporting (ICFR)**, which is made up of a compendium of processes to provide reasonable assurance as to the reliability of our financial information, includes the following objectives:

### EXISTENCE AND OCCURRENCE

The transactions, events and other developments mirrored in the financial information exist and were recorded at the right time.

### COMPLETENESS

The information reflects all the transactions, events and other developments affecting the Company.

### VALUATION

The transactions, events and other developments are recognized and measured in keeping with applicable regulations.

### PRESENTATION, DISCLOSURE AND COMPARABILITY

Transactions, facts and other events are recognized and measured in accordance with applicable standards.

### RIGHTS AND OBLIGATIONS

The financial information reflects, as of the relevant date, the Company's rights and obligations by means of the relevant assets and liabilities.

# TAXONOMY

---

# I. TAXONOMY/ ADIF AV

- According to article 8 of **Regulation (EU) 2020/852** non-financial companies considered to be public interest entities with more than 500 employees must publish in the 2021 NFSs the proportion of Taxonomy-eligible turnover, capital expenditure (CapEx) and operating expenditure (OpEx)
- When applying the European Taxonomy, Adif AV has analysed the information available in its **economic-financial systems**, with the same scope and breakdown as that used to draw up the company's separate financial statements.
- Due to the nature of its **competences and functions** the eligible economic activity identified corresponds to **activity 6.14 "Infrastructure for rail transport"**, included in annexes I and II of Delegated Regulation (EU) 2021/2139 on disclosures.
- For the 2021 period, the exercise carried out by Adif AV consisted of **identifying Taxonomy-eligible activities** among turnover, CapEx and OpEx items.

## Proportion of Taxonomy-eligible turnover

Considered eligible is turnover from changes and subsidies for network administration

Taxonomy-eligible economic activities: 6.14 Infrastructure for rail transport	76%	← Proportion of turnover(%)
Taxonomy non-eligible economic activities: Turnover from Taxonomy-non-eligible economic activities	24%	

## Proportion of Taxonomy-eligible capital expenditure (CapEx)

Considered eligible are intangible assets, property, plant and equipment and investment properties, excluding depreciation and amortisation

Taxonomy-eligible economic activities: 6.14 Infrastructure for rail transport	100%	← Proportion of CapEx (%)
Taxonomy non-eligible economic activities: CapEx from Taxonomy-non-eligible economic activities	0%	

## Proportion of Taxonomy-eligible operating expenditure (OpEx)

Considered eligible are expenses related to repairs and servicing of infrastructure

Taxonomy-eligible economic activities: 6.14 Infrastructure for rail transport	100%	← Proportion of OpEx (%)
Taxonomy non-eligible economic activities: OpEx from Taxonomy-non-eligible economic activities	0%

# ASSURANCE

# I. ASSURANCE / ISAE 3000

- Based on the **2020 reform of the Code of Good Governance of listed companies**, which expands the functions of the Board of Directors, including that of “supervising and evaluating the process of preparation and the integrity of financial and non-financial information, as well as the systems of control and management of financial and non-financial risks related to the company and, where appropriate, to the group”, **as a good practice and so that the Board has the appropriate mechanisms to carry out its supervisory and control work**, focusing on Regarding the reliability of the information reported, it has been verified by an independent third party in accordance with the **international standard ISAE 3000**.
- In 2021, in order to comply with the reliability of the **non-financial statements reported**, it **has been externally verified by an independent third party in accordance with the requirements established in the International Standard on Assurance Engagements 3000 Revised in force**, “Assurance Engagements other than Audit or the Review of Historical Financial Information”(ISAE 3000 Revised) issued by the International Auditing and Assurance Standards Board (IAASB) of the International Federation of Accountants (IFAC) and with the Action Guide on assignments to verify the State of Information No Financial issued by the Institute of Chartered Accountants of Spain.

# I. ASSURANCE / ISAE 3000

- Additionally, the verification has been collected taking into account the best practices of the **AA1000 AS2008 Sustainability Assurance Standard** of AccountAbility (type 2) that covers not only the nature and scope of compliance with the **AA1000 AP 2018 standard**, but also assesses the reliability information regarding performance.
- The **scope** of verification of the Non-Financial Information Statement (NFS) of the Adif AV Management Report corresponding to the year ended December 31, 2021 is **limited**, the verification being exclusively limited to the information identified in **Annex I: Index of contents**, included in the Management Report.
- The **procedures** carried out in said verification have been based on the professional judgment of experts, including consultations, observation of processes, evaluation of documentation and analytical procedures.

## II. ASSURANCE / ISAE 3000

- As a result of the procedures that have been carried out and the evidence obtained during the verification process, no issue has been found that leads one to think that Adif AV's NFS corresponding to the year ended December 31, 2021, has not been prepared, in all material aspects, in accordance with the contents of current commercial regulations and following the **criteria of Sustainability Reporting Standards of the Global Reporting Initiative (GRI Standards)**, selected according to what is mentioned for each subject in '**Annex I: Index of contents**' of the aforementioned NFS.

### III. ASSURANCE / ISAE 3000

Additionally, regarding the application of Adif AV of the **Standard of Principles of AccountAbility AA1000 AP 2018**, there has been no aspect that indicates that the organization has not applied the principles of inclusivity, relevance, responsiveness and impact as detailed in the points 102-43 and 102-44 of the GRI contents of the report.

---

Non-financial reporting enables us to lend visibility to our Company's contribution to a more sustainable and balanced development model where non-financial factors are on an equal footing with financial factors.

---

Accurate and transparent non-financial reporting, moreover, helps the Company become better trusted and appreciated among its stakeholders. For Adif AV, what is more, it is especially important to become a benchmark on financial markets as a socially responsible securities issuer.
